Net MVC, C#, CSS, JavaScript, jQuery, Ajax, HTML, Bootstrap, SQL Server Jan 2017 - Jun 2017

I Fly Techsoft, Bangalore/India
Software Development Intern

- Self-learned .NET framework and contributed to the development of a web application for school and college management systems as a Junior Software Engineer.
- Developed web pages for government-backed systems, participating in both front-end and back-end development tasks.

.Net MVC, C#, HTML, CSS, JavaScript, jQuery, jQuery, Bootstrap, SQL Server

Education

Bharathiar University Aug2013-April2016 Bachelor Of Computer Application *70%* Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Oper- ating Systems, Computer Networks, , Advance Data Structures and Algorithms, Java, C++, Web Programming, Operating Systems, RDBMS & Oracle, Compiler Design, Graphics & Multimedia,

Project Work

Intalment Card Binding (Ant International)
Java Spring, Java 17, RPC, SQL

Implemented a solution to streamline instalment card payments and improve user experience. Key contributions:
• Created architecture, solution analysis, release review, and integration documents.
• Collaborated with product managers and upstream/downstream teams to address system impacts.
• Conducted thorough impact analysis and ensured a smooth project release without disruptions.
• Supported QA team with testing, monitoring, and issue resolution during and after release.
• Delivered a user-friendly card binding process, reducing repetitive data entry and enhancing merchant integration.

IFE (Integral Front End) (KG Information System Sdn. Bhd)
Angular 10, Java 8, Restful Service, Java Spring Microservices, Maven, HTML5, CSS, Bootstrap 4.0, Material UI, Elastic Search.

IFE is a web solution for insurance claims, policy creation etc., which has dynamic capability to handle different type of users and products. Which has different authorization for agents and public users, integrated payment system and user friendly look and feel.
Responsibilities:

- Worked on existing system to support, fix new bugs, Implement change requests.
- Coordinate with different teams for enhancing product.
- Understanding business logic and code to fix enhance system.
- Implemented new features with high quality and performance.

Jurong Port Online (Media Concepts Consulting Sdn. Bhd)
Angular 6, Bootstrap 4.0, Java 8, Spring Boot 2.1.3, Restful Service, Microservice, Oracle, Maven, HTML5, CSS
Responsibilities:

- Helped team to migrate the existing Old Java framework projects to Angular and Java Spring Boot.
- Implemented data driven webpages for new features.
- Delivered change requests and critical production fixes in a short time period.
- Trained, Lead and Mentored junior employees.

Gatekeeper (Softend Technoserve Pvt. Ltd)
.Net MVC, C#, CSS, JavaScript, jQuery, Ajax, HTML, Bootstrap, SQL Server

Implemented Visitor Management System at Indian Naval Academy, Refined and improved existing documentation system, developed client-side website, extensively working with User Interface, Designed and Managed Database structures and data.
Responsibilities:

- Understanding functional specifications, designing, and creating custom solutions to match the requirements.
- Involved in developing the code using spring web MVC Involved in end-to-end development Worked in client location to take input and develop software according to their requirement.
- Refined and improved existing documentation system.
- Involved in database maintenance using Oracle

Student Success (I Fly Techsoft Pvt Ltd) *.Net MVC, C#, HTML, CSS, JavaScript, jQuery, jQuery, Bootstrap, SQL Server* Student Success is a powerful solution that is created by a talented and experienced team of professionals. Responsibilities:

- Interaction with the client at all stages of development to ensure that development was as per user specifications.
- Customised software according to client requirement.
- Involved in end-to-end development.
- Involved in preparing Documentation for project.
